📍 Poços de caldas - MG (Brazil)

GITHUB:https://github.com/carolezeq-Analist

SKILLS

Technical & Analytical Skills

· Geospatial Analysis: QGIS (Intermediate) – Thematic Mapping, Georeferencing, Spatial Data Management
· Data Visualization & BI: Looker (Intermediate) – Dashboard Creation, Data Exploration, Reporting
· Productivity Software: Microsoft Office (Intermediate)

Professional & Interpersonal Skills

· Communication: Advanced – Clear written and verbal expression, ability to present technical information
· Adaptability: Advanced – Quick to learn new tools and adjust to dynamic project requirements
· Self-Directed Learning: Advanced – Proactive skill development through online courses and hands-on practice (e.g., QGIS via YouTube tutorials)

LANGUAGES

PORTUGUES - NATIVE

PROFILE

Environmental Management student with hands-on experience in thematic and georeferenced mapping using QGIS. Skilled in applying geotechnologies to sustainability challenges, including land use analysis and environmental monitoring. Eager to contribute to innovative sustainability projects in a startup or scale-up where data-driven insights inform ecological solutions.

WORK EXPERIENCE

Laboratory Assistant   JAN - 2025 / JUN 2025
MedNet – Occupational Medicine & Healthcare

· Digitized and archived medical exam records, ensuring accuracy and compliance with data management protocols.
· Performed blood collection and sample processing following strict safety and hygiene standards.
· Updated and maintained digital spreadsheets for sample tracking and laboratory logistics.
· Managed biological waste disposal in accordance with environmental and safety regulations.
· Safely transported biological materials

COURSES & CERTIFICATIONS

Laboratory Assistant Training Certificate
MedNet – Occupational Medicine & Healthcare
Jun 2023 – Aug 2023

Self-Directed GIS & QGIS Training
Online (YouTube – Precision Agriculture & Mechanization Channel)
08/2025 - Present

· Practical application of QGIS for thematic mapping and georeferencing.
· Learned techniques for spatial analysis and cartographic design applied to agricultural and environmental contexts.
· Developed foundational skills in raster/vector data handling, coordinate systems, and layer styling.

EDUCATION

Associate Degree in Environmental Management (Technologist Program)
Institution: UNICESUMAR
Status expected Graduation: December 2026
Start Date: February 2025
